What is LEAN?

LEAN

|
|

Lean manufacturing, or lean production, is a production method derived from Toyota's 1930 operating model "The Toyota Way".

Balanced Lifecard Activity

- ▶ **Livelihood:** how you make a living. It encompasses income and activities required to secure the necessities of life.
- ▶ **Wellness:** being in good physical, mental, and spiritual health.
- ▶ **Relationship:** all of the people that are important to you.
- ▶ **Fun:** all of the things you enjoy, including hobbies, crafts, sports and play.

Balanced Lifecard Activity

The central image is a 2x2 grid of photos on a pink and purple background, illustrating a balanced lifestyle. The quadrants are labeled as follows:

- LIVELIHOOD** (top-left): Includes a stock market board, a female doctor in a white coat, and a person in a red smiley face mask.
- WELLNESS** (top-right): Includes a sign that reads "SELF CARE ISN'T SELFISH" and a plate of fresh vegetables.
- RELATIONSHIP** (bottom-left): Lists the names "JOSH", "ERIC", and "KARRIS" next to a photo of a lizard.
- fun** (bottom-right): Includes a keyboard, a concert scene with bright lights, and a view from a car window.

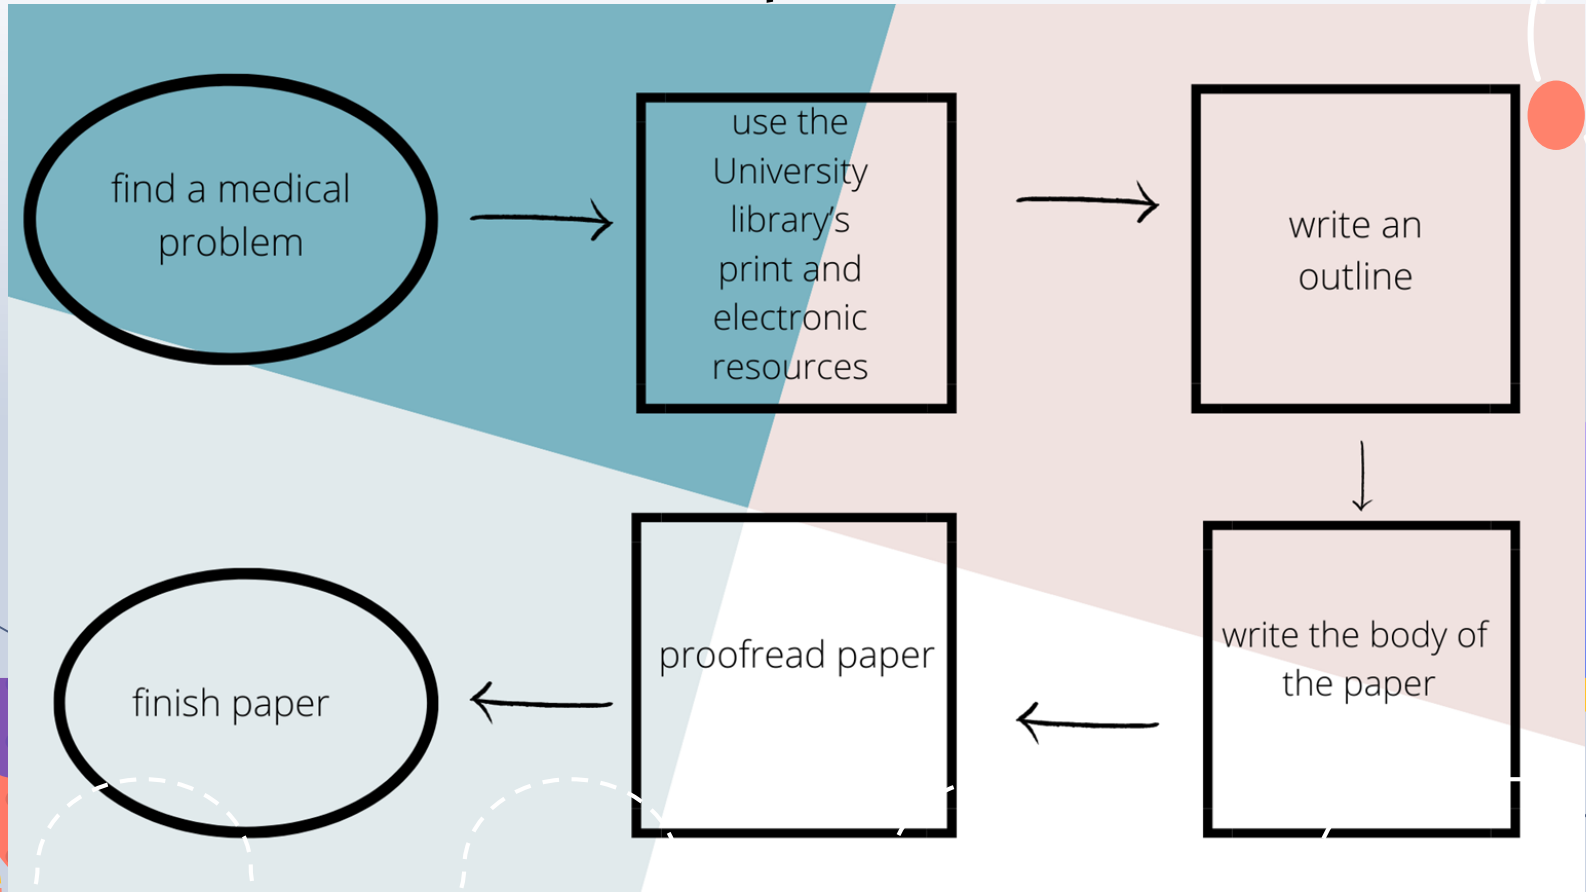

Value stream map

A value stream map is just a process map on steroids. It is a Lean tool to understand a process from a high level down to the small details. A value stream map provides a way to analyze where problems exist - problems with information, communication, cost, time, and quality.

Value stream map

find a medical problem

use the University library's print and electronic resources

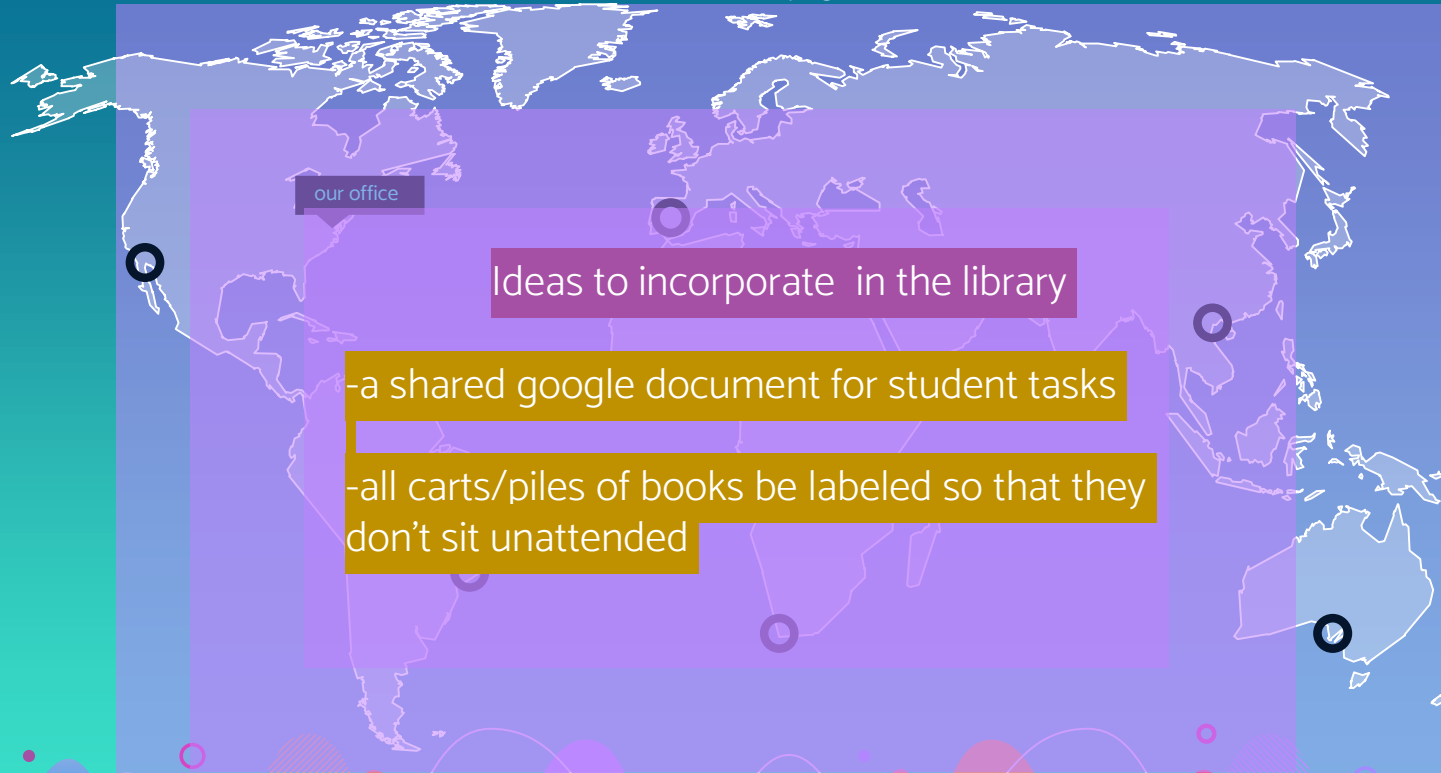

write an outline

write the body of the paper

proofread paper

finish paper

MAPS

our office

Ideas to incorporate in the library

-a shared google document for student tasks

-all carts/piles of books be labeled so that they don't sit unattended
