LEAN

Presented BY Jyana Seaman

What Is LEAN?

- Initially created as a method to make the mass manufacturing industry more efficient
- LEAN is now used in range of other industries as a means to create quick, organized working environments

The Five LEAN Principles

- Value
- Value Stream
- Flow
- Pull
- Perfection

What is True North?

- *This signals the importance of an organization or person. This is the path that should be followed to achieve LEAN principles*
-

What I've Learned

As a full time student juggling work in the Library and in the Residence Halls as a Resident Assistant, balance is essential. Here are the skills that I've learned through Bronze Training!

1.

Cohort #2 Manifesto

We are building on excellence (Xavier is the X in eXcellence). Using Xavier's mission statement we would be building on what Xavier is already doing.

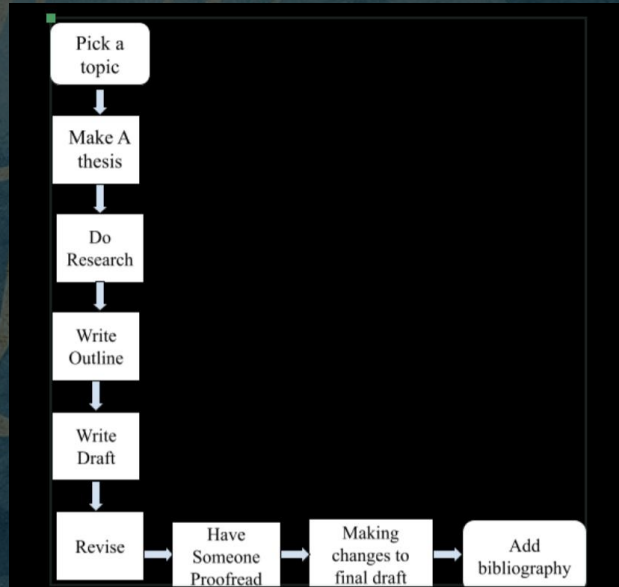

We are becoming excellent through efficiency. Students using the library today don't know how to find what they need, but the library holds so many good resources. By becoming excellent through efficiency, we are marketing our resources to students and letting them know what the library has for them.

Students must know where everything is located!
As we become efficient, we will respect everyone and work together as a team.

Value Stream Mapping

- This is a map that breaks down a process into smaller details. This helps identify when problems may exist.

Jyana's Stream Value Map

Key:

Oval: Start and end of Map

Box: Verbs and Nouns

Arrows: Direction of workflow

KANBAN!

- Kanban is Japanese for 'signboard'.
- It is associate with the 'Pull' principle of LEAN
- A Kanban includes tasks to be done, how many there are and their priority level

Conclusion

Question 1 :Is LEAN helpful for our Library Team to utilize?

Answer 1: Absolutely! I believe these skills can be utilized to create a space that is good for both staff and students. It is important to create good habits that we are all familiar with so we can have a healthy work space.

Question 2: Can LEAN be used outside the Library?

Answer 2: Yes! All of these can be used to keep everyday life organized. I particularly enjoy using Kanban, which helps me stay on top of my duties as an Resident Assistant.

Thank You!
